

# Project Update for Winter Break Dec. 20, 2016 - Jan. 5, 2017

## CAUTION: Winter Road Conditions – Be Prepared!

For up-to-date forestry road information, please go to:  
<https://www.for.gov.bc.ca/dsg/Engineering/RoadInformation.htm>

KM	Activity along the Lillooet River FSR
KM 0 – 49	Limited snow clearing throughout the winter break.
KM 37.5	Check Point Booth will not be manned over the holidays.
KM 0 – 1.5 Pebble Mainline (aka Camp Road)	Access road will be plowed from the FSR to the camp.
KM 39 Athel Mainline Road (aka Boulder Intake Road)	Access road plowed for first 100 metres. Boulder Intake – <b>GATE CLOSED</b> at KM 3 for Mountain Goat restriction.
KM 42	Lillooet River Trail <b>OPENED</b> by RSTBC – Trail is covered in snow and ice with multiple avalanche paths along the trail. <b>Use at Your Own Risk!</b>

### Avalanche Control and Snow Clearing along Lillooet River FSR

- A small crew will be conducting limited snow clearing throughout the winter break from KM 0-49.
- Pullouts for snowmobiles will be maintained where snow clearing ends. Please ensure vehicles do not block the FSR.
- Parking lots at KM 8.5 (snowmobile staging to the Hurley) and KM 42 (Lillooet River Trail) will be kept cleared.
- Active and passive control of avalanche zones may occur along the Lillooet River FSR and the road can be closed at any time for such control activities, if and when required. Avalanche technicians will block the road on either side of avalanche control area during control activities and once the area is deemed safe, the road will be reopened.
- Plans are subject to change.
- Sections of the Lillooet River FSR remain very rough from the November 8-9, 2016 flood event – drive with caution!
- Construction site will start to be re-opened the first week of January 2016.

### Be Prepared to Self-Rescue during Winter Conditions

**PLEASE NOTE:** CRT-EBC will allow a person in need to contact emergency services in town from the camp phone line to assist them but CRT-EBC will **not** be providing any services/amenities or responses to the public or stakeholders unless under the lead of other agencies (e.g. RCMP, Search and Rescue). Anyone entering the backcountry during the winter/avalanche season must be prepared for all situations and be able to self-rescue.
